

Forms Assignment

I would like you to use several of the forms elements to create a survey form. The survey does not have to work yet, but you need to have included the form elements properly. You should create a form and questions that makes sense. Your form must include **at least ten questions** including several of the following:

1. HTML5 email field
2. HTML5 calendar field
3. Spinner
4. HTML5 slider field
5. Selection list
6. HTML5 datalist field
7. Radio buttons
 - a. All the radio buttons for one question only count as one item towards the ten you need for the assignment
8. Checkboxes
 - a. All the checkboxes for one question only count as one item towards the ten you need for the assignment
